

I live in Collierville, Tennessee and listend to K-Love on fm 94.9 everyday. It is my way to focus on God and be encouraged in my faith. If this station were to be displaced by an LPFM broadcaster providing other programming many non-believers would not hear about the salvation of Christ and many Christians would not be able to worship daily.

K-Love provides a huge service to the community by providing uplifting, positive, family friendly programming. In a time when rock stations blurt out sexual inuendos and curse words, having a safe station for people to turn to is an extremely important alternative.
